Would Exclude Union Officials. A bill has been introduced in the Canadian senate which will exclude from participation in labor disputes in the Dominion all representatives of international unions who do not reside in Canada. It is said that the bill grew out of the street car strike at Hamilton, in which President Mahon and other officials of the International Association of Street and Elevated Railway Employees played an important part. The labor organizations of Canada are working hard against the bill.

## Don't You Like This Town?

You live here. Your business interests are here. Your home is

You are reading a Mail Order Catalogue. That indicates that you are not spending your money in this town. You are spending it with strangers in a big eity. That city has no use for this town except to get your money.

This town has use for your money. If spent here, your money will help to build up the town. It will help to build up your own busi-

In the long run more of your money will come back to you if you spend it at home than if you send it to Chicago or some other large city. You spend a dollar with Smith, up the street. Smith spends it with Brown, around the corner. Brown is just as likely to spend it with you as with anybody else. Did you ever think of that?

All of us have to spend money. There is an art in spending it where it will do the most good. If spent so that it will circulate around this town and community, it will help this town and community. You belong to this town and community. Therefore it will help you. Isn't that good logic?

Suppose you think it over next time you pick up the Mail Order Catalogue.

## Every one made too much fuss over An advertisement in the Times will bring sure results.
